ATTN: Licensing Assistance Section

Dear Sir or Madam:

The Veratec Division of International Paper at Lewisburg, PA is a specific licensee of the NRC (License # 37-28639-01). This letter is to inform you that Jeffrey W. Loss, Radiation Safety Officer, is leaving employment with Veratec on June 23, 1995.

Per my conversation with Steve Courtemanche (Ext. 5075) on June 19, 1995, we are installing Duane Eberhart as the new Radiation Safety Officer. Duane has a Bachelor of Science Degree in Electrical Engineering from the Pennsylvania State University. Part of his collegiate education included a 3.0 credit Nuclear Physics course. Duane also has gauge maintenance training (certificates attached), and was previously responsible for our Radiation Program for several years while Veratec operated under a general license.

Within the next two months Duane will familiarize himself with the new 10 CFR Part 20. Within the next six months he will also participate in formal training consisting of new 10 CFR Part 20 requirements, ALARA, new dosimetry requirements, declared pregnant worker program, etc. Until this formal training is complete, all "decisions" with respect to our radiation program will be made between Duane and the two technicians named on our specific license.
