U.S. Nuclear Regulatory Commission
Region 1
Nuclear Materials Safety Section C
Division of Radiation Safety And Safeguards

Dear Sir:

I have recently submitted an application for a byproduct material license (ref. your control no. 114425). However, you replied with a letter indicating that you need additional information.

Due to vacations, etc., I will not be able to gather the necessary information for several weeks. I am interested, although, in pursuing the application.

If you have any questions or concerns please contact me at (717) 524-2281, EXT 458.

Sincerely,

Jeffrey W. Loss
Senior Maintenance Engineer
