Subject: Oppose North Anna Nuclear Reactor

593

Dear Chief Lesar

I oppose any plans by Dominion to build any new nuclear reactors at its North Anna nuclear power station in Virginia. Nuclear energy is unsafe and it does have considerable lifecycle polluting emissions. It is also extraordinarily expensive and has cost U.S. taxpayers many billions of dollars. Efficiency measures can save businesses and other ratepayers considerable money while foregoing the expense of building many new power plants. Market-based programs for Energy Star products and green building should be developed as part of our energy portfolio. These programs would render unsafe and expensive proposals such as this one unnecessary. Thank you for your consideration.
