**Subject:** NO to New North Anna Reactor

640

Dear NRC,

I am writing to register my opposition to Dominion Virginia Power's application to build a new reactor at their North Anna facility.

Construction and operation of the new facilities will disrupt fish stocks and wetlands, simultaneously damaging the environment and disrupting recreational uses of Lake Anna.

Furthermore, the need for greater efforts to preserve and restore the Chesapeake Bay Watershed, of which Lake Anna is a part, has already been highlighted this year. Localities have already initiated debate over a "flush tax" to pay for improvements in nutrient reduction technology at wastewater treatment plants. The last thing the watershed needs now is additional strain placed upon it by pollution created during the construction and operation of a new reactor.

It is my sincere hope the commission will conclude a new reactor is not appropriate and will withhold its approval.

Regards,  
Brian Deasy
