Subject: Safety and enviromental affect on all districts

Dear Sirs

I was one of the only African Americans from the Louisa County area to attend the meeting at Louisa County middle school on February 17th. The powers to be had said that they have put the information out there for all to see and participate in. Not so. My community which lies approximately 15 miles from the current power plant. None of the people living in this area have been approached or asked or given any information about the current application for and ESP at north Anna. I do not want this neighborhood left out because there are lots of minorities that live here. The Jackson district pays taxes in this county. they should be allowed the facts on the impact of this proposed nuclear reactor building. There isn't a sufficient emergency evacuation plan for Route 33. It is two lanes wide. How is it that you do not have an evacuation plan with such a limited way to get out? Most of us live very near Route 33 and according to your plan we have to get to Patrick Henry High school in Ashland. 18 miles away on a two lane road. this is not good. We need to hold town meetings in churches in the area to make the facts clear with this community.

Sherelle Jackson
