Subject: NO NEW REACTORS AT NORTH ANNA!

(654)

Dear Sir or Madame:

I am writing to strongly writing to strongly OPPOSE granting an Early Site Permit (ESP) to Dominion Resources to build two new reactors at the North Anna nuclear plant in Mineral, VA. I am horrified that this is even considered in light of nuclear disasters that have happened in the past, such as Three Mile Island. I do not want to raise my children in the shadow of a terrorist target, and I encourage you to NOT grant the ESP to Dominion. We should focus on renewable sources of energy, without hesitation, such as wind and solar, and leave nuclear energy as a dirty part of our past.

12/10/04

69 FR 71854

The draft Environmental Impact Statement states that construction activities permissible under the ESP may stir up heavy metals and other contaminants in the lake sediment, while details about mitigation measures are murky. Further, other effects on the lake, such as temperature increases and reduced water levels, are not fully analyzed. Finally, questions about the adequacy of current security regulations and performance are ignored, as are issues of waste generation and its safe, permanent isolation.

Too many questions remain unanswered and too many problems remain unsolved for the NRC to grant an ESP. Please DO NOT GRANT THE ESP to Dominion!

Sincerely,

Christine Gyovai
