

March 18, 2005

Mr. John Droneburg, Director
Maryland Emergency Management Agency
Camp Fretterd Military Reservation
5401 Rue Saint Lo Drive
Reisterstown, Maryland 21136-4541

SUBJECT: CALVERT CLIFFS NUCLEAR POWER PLANT - ANNUAL ASSESSMENT OF
SAFETY PERFORMANCE

Dear Mr. Droneburg:

I would like to personally invite you and other members of your organization to attend a meeting between the Nuclear Regulatory Commission (NRC) and Constellation Energy (Calvert Cliffs Nuclear Power Plant) in which the NRC staff will discuss with Constellation Energy our annual assessment of the safety performance of the Calvert Cliffs Nuclear Power Plant.

The meeting will be held at 6:30 p.m. on Thursday, April 14, 2005, at the Holiday Inn Express, 355 Merrimac Ct., Prince Frederick, MD. At the meeting we will briefly discuss our Reactor Oversight Process and then discuss with Constellation Energy our assessment of their safety performance of Calvert Cliffs and their response to our assessment. The meeting is open to the public for observation. Following the presentation, the NRC staff will be available to answer questions from you and members of the public regarding the safety performance of Calvert Cliffs and the role of the NRC in ensuring safe plant operations.

The NRC recently completed its annual assessment of the safety performance of the Calvert Cliffs Nuclear Power Station in accordance with the NRC Reactor Oversight Process. Our assessment used the most recent performance indicator data and inspection findings from January 1, 2004 through December 31, 2004. We described our assessment results in a letter to the Constellation Energy on March 2, 2005. A copy of that letter and the meeting notice with the meeting agenda are enclosed. The notice includes references to the NRC's annual assessment meeting slides in ADAMS. ADAMS is accessible from the NRC Website at: <http://www.nrc.gov/reading-rm/adams.html>.

You can also become familiar with our Reactor Oversight Process, the information we used in our annual assessment, and the specific safety performance at the Calvert Cliffs Nuclear Power Station through the NRC Website. This information may be accessed at: <http://www.nrc.gov/NRR/OVERSIGHT/ASSESS/index.html>

Your schedule permitting, I look forward to meeting you on April 14, 2005. In the interim, if you have any specific questions or topics of interest to be discuss during our assessment meeting, please do not hesitate to contact me prior to the meeting at 610-337-5186 or via e-mail at JMT1@nrc.gov.

Sincerely,

/RA/

James M. Trapp, Chief
Projects Branch 1
Division of Reactor Projects

SUBJECT: CALVERT CLIFFS NUCLEAR POWER PLANT - ANNUAL ASSESSMENT OF
SAFETY PERFORMANCE

Dear Mr. Cox:

I would like to personally invite you and other members of your organization to attend a meeting between the Nuclear Regulatory Commission (NRC) and Constellation Energy (Calvert Cliffs Nuclear Power Plant) in which the NRC staff will discuss with Constellation Energy our annual assessment of the safety performance of the Calvert Cliffs Nuclear Power Plant.

The meeting will be held at 6:30 p.m. on Thursday, April 14, 2005, at the Holiday Inn Express, 355 Merrimac Ct., Prince Frederick, MD. At the meeting we will briefly discuss our Reactor Oversight Process and then discuss with Constellation Energy our assessment of their safety performance of Calvert Cliffs and their response to our assessment. The meeting is open to the public for observation. Following the presentation, the NRC staff will be available to answer questions from you and members of the public regarding the safety performance of Calvert Cliffs and the role of the NRC in ensuring safe plant operations.

The NRC recently completed its annual assessment of the safety performance of the Calvert Cliffs Nuclear Power Station in accordance with the NRC Reactor Oversight Process. Our assessment used the most recent performance indicator data and inspection findings from January 1, 2004 through December 31, 2004. We described our assessment results in a letter to the Constellation Energy on March 2, 2005. A copy of that letter and the meeting notice with the meeting agenda are enclosed. The notice includes references to the NRC's annual assessment meeting slides in ADAMS. ADAMS is accessible from the NRC Website at: <http://www.nrc.gov/reading-rm/adams.html>.

You can also become familiar with our Reactor Oversight Process, the information we used in our annual assessment, and the specific safety performance at the Calvert Cliffs Nuclear Power Station through the NRC Website. This information may be accessed at: <http://www.nrc.gov/NRR/OVERSIGHT/ASSESS/index.html>

Your schedule permitting, I look forward to meeting you on April 14, 2005. In the interim, if you have any specific questions or topics of interest to be discuss during our assessment meeting, please do not hesitate to contact me prior to the meeting at 610-337-5186 or via e-mail at JMT1@nrc.gov.

Sincerely,

/RA/

James M. Trapp, Chief
