FROM: RIII - James R. Mullauer

SUBJECT: VOIDED APPLICATION

Control Number: 313972

Applicant: Goshen General Hospital

License Number: 13-18845-01

Docket Number: 030-14254

Date Voided: January 27, 2005

Reason for Void: The licensee requested that a physician, who does not meet the training and experience requirements set forth in NRC guidance list on the NRC website, be authorized for yttrium-90 manual brachytherapy microspheres. The reviewer spoke to the licensee's consultant who agreed that the request be voided and the licensee will follow-up with a request for exemption to the guidance. This solution was discussed with Patty Pelke, of the Materials Licensing Branch and agreed to this resolution. Therefore, this action is voided
