RE: Amendment Request for License Number 37-19659-02

03035977

Dear Madam or Sir:

McMinn's Asphalt Co., Inc. currently possesses a Materials License issued by the NRC for Cesium 137 source material. The license pertains to gauges manufactured by Troxler Electronic Gauges, Inc. that McMinn's uses in its asphalt pavement operation. McMinn's is in the process of purchasing a new gauge from Troxler, however, an additional source material is used in the new gauge, Americium 241.

McMinn's hereby requests that our license be amended to also include Americium 241.

It should be noted that McMinn's has a certified Radiation Safety Officer and all of our gauge operators and transporters have successfully completed Nuclear Safety Training Classes and possess appropriate Hazmat Certification as required by U.S. DOT and IATA.

Please do not hesitate to call me at (717) 569-2623 Extension 210 should you have any questions.

Very truly yours,

James Lilley
Safety Officer
