Re: Documentation of renewal for NRC Materials License # 06-08020-02 03001272

---

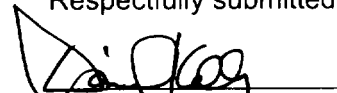

Dear Sir or Madam:

Enclosed you shall find two complete copies of our license renewal documentation prepared according to the new guidance criteria of NUREG-1556, Vol 9.

Our institution does not employ more than one modality of radioactive materials for therapeutic uses, therefore, a Radiation Safety Committee is not a requirement for our license. We would request of your offices to review our application and inform us of your evaluations when possible.

Should you have any questions or desire additional information regarding our continued use of licensed materials please contact me at 860-364-4141. Thank you for your assistance.

Respectfully submitted,

Mr. Daniel Kelly  
President & CEO
