Subject: I Oppose the Nuke Plant Relicensing at Millstone CT

12/9/04

Hi Dick,

69FR 71437

I oppose renewing the license on the Millbrook Nuke. I feel it threatens the safety and security of Eastern Long Islanders. I am a US Citizen that votes.

- > 1. The Millstone DEIS is completely silent on impacts to Long Island. Shoreham did not come on line because we couldn't put an evacuation plan in place.
- > 2. Millstone has been operating with an expired Clean Water Act discharge permit since 1997. The Clean Water Act mandates permit holders to obtain five-year permits so that every five years they will have to demonstrate that they have implemented best available technology to reduce or eliminate pollution if they want their permits renewed. Millstone has been able to get away with operating with non-updated technology an extra five years.
- > 3. Millstone is responsible for the depletion of native fish species through the operations of its intake structures. All these assaults on the environment would end if (a) Millstone were shut down or (b) if Millstone
