Richard L. Emch, Environmental Project Manager, U.S. Nuclear Regulatory Commission, Washington DC 20555-0001.

Mr. Emch,

Please deny Millstone's operating license.

As a resident of the North Fork of Long Island it is unacceptable to me that Millstone be allowed to operate without a workable evacuation plan in place for my township.

The threat posed my Millstone's operation to Long Island's environment and quality of life are larger than the benefits to CT's energy costs.

Sincerely,

Jenny Bloom
