Dear Richard L. Ech,

12/9/04

Does Millstone have an updated Clean Water Act discharge permit? I understand their's expired in 1997. If this is true, why has it been allowed to operate without one???

69FR 71437

And if a closed cooling system existed, would that not have a positive impact upon the environment? Why isn't one being installed?

36

How can we face the guilt of destroying our environment for our future generations because we are too cheap to do the right thing?

CLOSE MILLSTONE PLEASE.

Thank you.

Judi
