FOI/PA REQUEST

Case No: 2005-0182
Date Rec'd: 3-22-05
Specialist: Cullen
Related Case: _____

Dear Ms. Reed:

Under the provisions of the Freedom of Information Act, we are requesting access to information on medical sites using radioactive materials including sites using positron emitting isotopes to perform PET studies on humans, and sites with cyclotrons. If sites with cyclotrons are supplying PET isotopes to other facilities and you can provide us with the names of those places, please send that information too. We would like the name of the institution, address, telephone number, contact person, authorized users, **authorized places of use** and allowed isotopes for licensees currently in the following site categories:

- 02110 Medical Institution Broad
- 02120 Medical Institution Limited
- 02121 Medical Institution Custom
- 02200 Medical Private Practice-Limited
- 02201 Medical Private Practice-Custom
- 02209 Grandfathered In-Vivo General Medicine Use
- 02220 Mobile Nuclear Medicine Service
- 02230 High Dose Rate Remote Afterloader
- 02231 Mobile High Dose Rate Remote Afterloader
- 02240 Mobile Therapy
- 02300 Teletherapy
- 02310 Stereotactic Radiosurgery-Gamma Knife
- 02500 Nuclear Pharmacies

ANY additional categories related to positron emission tomography and cyclotrons

I am also interested in finding facilities that have Medical Linear Accelerators (used for treating cancer patients). I am not sure if this information would be included or if it has to be requested from the individual states.

Please respond with fees and format options or if this information is available on the internet, please email the website address to me at wrichards@imvlimited.com. If you have any questions, please contact me at 847-297-1404 x 122 or by email. Thank you in advance for your help.

Sincerely,

Wendy Richards
Manager, Database Development
