**Subject:** Millstone License Renewal - Letter of Opposition and Contact Information

Dear Mr. Zalzman,

I would like to take this opportunity to thank you for listening to our concerns as it related to cutting short the NRCs presentation at the Millstone Meeting on Tuesday. I also appreciate the fact that myself, Mike Domino and Supervisor Horton were given the opportunity to speak first as we had to catch a 5:00 Ferry back to Long Island.

The attached email is from Assemblywoman Pat Acampora of Mattituck. Please take a moment to review her comments that were forwarded to Mr. Emch.

Lastly, I would like to provide you with contact information of our local representatives who should be put on your list of "people to contact" representing Long Island & NYS. These individuals should be advised of future meetings as it relates to the Millstone Power Plant license renewal or other matters relating to this plant. Please ensure your community affairs people have this information for future reference. Additionally, would like to recommend conducting this licensing meeting on Long Island for "public" feedback. If you would like to plan a meeting on Long Island, I recommend you contact one of the individuals listed below to determine a mutually agreeable location.

The following information applies:

Southold Town Supervisor  
Joshua Horton  
631 765 1889

**Subject:** Millstone License Renewal

January 10, 2005

Mr. Richard Emch, Jr.  
Division of Regulatory Improvement Programs  
Office of Nuclear Reactor Regulation  
United States Nuclear Regulatory Commission  
Washington DC 20555

I write concerning the United States Nuclear Regulatory Commission's consideration for the Millstone Power Stations, Units 2 and 3 License Renewal for the next twenty years. Unfortunately, I will be unable to attend the during the Tuesday, January 11th public discussion forum held in Waterford, Connecticut. The New York State Legislature is in session on that date and therefore, I will be in Albany.

I wish to share with you my serious concerns that Millstone's operation poses a serious risk to the residents of the North Fork of Long Island. Without an emergency plan in place that expands the current 10 mile radius to a 50 mile radius including the North and South Forks, there should be no consideration of renewing Millstone's contract. In the event of an accident or terrorist attack, Long Island is currently extremely vulnerable. We must ensure that safety of the residents of Eastern Long Island. Therefore, I strongly oppose renewing the contract of The Millstone Power Station.

Thank you for your consideration of this extremely important matter. I would also like to be informed in the future regarding public meetings and discussions concerning the Millstone Power Station.

Sincerely,

Patricia L. Acampora  
MEMBER OF ASSEMBLY
