

March 23, 2005

Mr. William F. Kearney
Manager, Health Safety,
and Environmental Affairs
Power Resources, Inc.
P.O. Box 1210
Glenrock, WY 82637

SUBJECT: ACKNOWLEDGMENT OF REQUEST FOR ADDITION OF THE REYNOLDS
RANCH AMENDMENT AREA (TAC LU0082)

Dear Mr. Kearney:

I am responding to your letter dated January 14, 2005, which forwarded the request for the Reynolds Ranch amendment for U.S. Nuclear Regulatory Commission (NRC) staff's review and approval. We have completed the initial processing of your request, which is an administrative review.

During the initial processing, some omissions/deficiencies were identified. These deficiencies are as noted: (1) the licensee needs to describe the method used to estimate the pore volumes and the associated horizontal and vertical flares, and (2) the corrected surety information for the addition of the satellite facility and associated uranium recovery units to be added. The identified information should be provided within 30 days of the date of this letter so that your request can be forwarded for technical review. Please note that failure to provide this information within 30 days may result in delays in our review of the information. In addition, the technical review may identify omissions in the submitted information or technical issues not identified during the administrative review that require additional information.

If you have any questions, please call me at (301) 415-7694, or by e-mail to jhl@nrc.gov.

In accordance with 10 CFR 2.390 of the NRC's Rules of Practice, a copy of this letter will be available electronically from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

/RA/
John H. Lusher
Project Manager
Uranium Processing Section
Fuel Cycle Facilities Branch
Division of Fuel Cycle Safety
and Safeguards
Office of Nuclear Material Safety
and Safeguards

Docket No.: 40-8964
License No.: SUA-15
