**SUBJECT:** Amendments to Sensor Services, Inc., application to distribute sealed sources, docket # 030-33967, in response to your oral deficiency request dated 1-23-96.

Dear Mr Reber,

In order to comply with your deficiency request to notify the USNRC, and any appropriate Agreement State Agency, of the persons sources were transferred from, I have included in this letter the following:

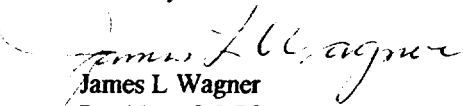

Revised Supplementary Page Twelve. Please note under C., Transfer Reports items (a) & (b) the addition of the requirement:

- \* The identity and address of the original persons the sources were transferred from.

I believe this additional phrase should fulfill your requirements that the USNRC, and possible appropriate Agreement State Agencies, be notified of the identity of the persons sources were transferred from.

If there are any questions or changes you feel should be made, please don't hesitate to call or Fax.

Sincerely

  
James L Wagner  
President & RSO

**B. Information Furnished to General Licensees: (Continued)**

- \* The responsibilities of the RSO.
- \* The necessity of informing the USNRC or appropriate State Agency of problems with, or transfer of the Isotope including the new installation.

**NOTE:** Included in the Attachments is a Copy of SSI Form 40, Source Installation Form, SSI Form 39, Notice of Receipt of Generally Licensed Device and SSI Form 9, Licensed Device Initial Inspection.

**C. Transfer Reports:**

**(a)**

Sensor Services will submit to the USNRC within thirty days after the end of each quarter, wither or not sources were transferred, a report detailing the following:

- \* The identity and address of the original persons the sources were transferred from.
- \* All transfers of such devices to persons for use under the General License in Art. 31.5 of USNRC Rules & Regulations.
- \* Identify each general Licensee by name & address.
- \* Identify an individual by name & title who is responsible individual to contact for radiological records, safety and procedure.
- \* The type and model number of device being transferred.
- \* The type and quantity of the byproduct contained in the device.
- \* If more than one intermediate persons will temporarily posses the device at the intended place of use prior to its possession by the user, the report shall include identification of each intermediate person by name, address contact, and relationship to the intended user.
- \* If no transfers have been made during the reporting period, the report will so indicate.

The report will be sent to the Director Of Nuclear Materials Safety and safeguards, USNRC, Washington DC, with a copy to the appropriate NRC Regional office.

**(b)**

If Sensor Services transfers a source in an Agreement State, a report shall be submitted to the appropriate state agency within 30 days at the end of the quarter.

- \* The identity and address of the original persons the sources were transferred from.
- \* All transfers of such devices to persons for use under the Agreements State's equivalent regulations to General License in Art. 31.5 of USNRC Rules & Regulations.
- \* Identify each general Licensee by name & address.
- \* Identify an individual by name & title who is responsible individual to contact for radiological records, safety and procedure.
- \* The type and model number of device being transferred.
- \* The type and quantity of the byproduct contained in the device.
- \* If more than one intermediate persons will temporarily posses the device at the intended place of use prior to its possession by the user, the report shall include identification of each intermediate person by name, address contact, and relationship to the intended user.
- \* If no transfers have been made during the reporting period, the report a will be sent only at the request of the said state agency.
