<b>License No.:</b> NA	<b>Docket No.:</b> 15000020	<b>Control No.:</b> NA
<b>Licensee Contact:</b> Ron Slade	<b>Telephone No:</b> 617-353-9734 (desk) 617-799-7843 (cell)	
<b>NRC Contact:</b> Betsy Ullrich	<b>Telephone No:</b> 610-337-5040	
<b>Subject:</b> NMMSS inspection/Telephone Contact Report		
<p>1. Ron Slade is the Radiation Safety Officer for Boston University. They had only one NMMSS source. It was transferred through the DOE Off-Site Source Recovery program late in the summer. They received confirmation of receipt of the source late in December. They were waiting to report the transfer to NMMSS until they had a copy of the confirmation of receipt.</p> <p>Based on discussions with John Pelchat, the on-site inspection was cancelled. He requested that we include a copy of the confirmation of receipt of the source, along with the normal documentation of a 'telephone contact interview' as would be done for 5T category inspections.</p> <p>Ron Slade stated that he would fax a copy of the confirmation to me.</p> <p>2 - 5 NA</p> <p>6. Leak tests were at 6 month intervals. The source was leak-tested prior to transfer.</p> <p>7. This source was part of a 6-month physical inventory (same time as leak-test).</p> <p>8. NA</p> <p>9. None.</p> <p>Additional Information: 1/25/05 I contacted Ron Slade because I had not received the fax. He said that he had sent it shortly after our earlier phone call, but that he would send it again. 1/26/05 A fax still was not received. I emailed Ron Slade, requesting that he re-check the fax number he was using, and stating that I would email him when I had received the fax. 1/26/05 Fax was received, email sent to Ron Slade to confirm it.</p>		
<b>Action Required/Taken:</b> Close the telephone contact process.
