

March 24, 2005

Mr. Geoffrey Sea  
340 Haven Ave. Apt. 3C  
New York, NY 10033

Dear Mr. Sea:

Earlier this month, we mailed you a complete copy of Appendix B to USEC Inc.'s Environmental Report (ER) for the American Centrifuge Plant (ACP) without an explanation. Appendix B contains the consultation letters regarding USEC Inc.'s proposed ACP to be built in Piketon, OH. Due to an oversight on our part, this Appendix was inadvertently not made publicly available with the license application and ER following the NRC's security reviews in late December 2004. Once we identified this error, we had the Appendix made publicly available in our Agencywide Document Access and Management System (ADAMS) and provided copies to pertinent individuals, including yourself. We are also in the process of updating our web page to include this Appendix with the rest of the Environmental Report.

If you have any questions, please give me a call at (301) 415-8113.

Sincerely,

**/RA/**
