Rich, John, Jeff,

34-25957-03E docket 030-30726 appears to be a license that was formerly owned by Syncor International and became Cardinal Health when they purchased Syncor. My recollection and understanding is that the former Syncor had purchased Innovision, who I think was the original E-distribution licensee. Cardinal appears to have acquired it when they acquired Syncor. I seem to recall that sometime recently I heard through the health physics grapevine that Cardinal was selling off this portion of their services/product line. I guess that would lead to another change in ownership that you are now reviewing.

Region IV does manage the Cardinal Health multisite radiopharmacy license 04-26507-01MD docket 030-33224. I am the current project manager for inspection oversight of this license. I assure you that the facility to which you refer is NOT managed by Region IV. The exempt distribution activities on the license to which you refer are not reviewed by Region IV. It does not fall under our purview as overseers of the radiopharmacy license. It is important to understand that we oversee the multisite radiopharmacy license alone, and not Cardinal Health as an entire corporate entity. While the license you refer to may have the name "Cardinal Health", this is an entirely different organization within Cardinal Health than the one that Region IV manages.

This appears to me to be a Region III licensee.

Thanks and please let me know if you have any further questions.

Janine

 John & Jeff,

This licensee is located in Cleveland, OH, and is identified in our License Tracking System as being in Region III. The inspection on 7/31/02 was done by G. Parker of Region III. Of course, if there is a mistake we would like to fix it. Can one or both of you figure this out and let me know?

I realize that the issue (no prior notification of change of control) is not one of great significance, but believe it would be worth bringing up the next time this licensee is inspected.

Thanks

Richard, thanks for the info., however, this is a RIV licensee. I have put this message with your issue on cc to Jeff Cruz, the RIV Inspection Branch Chief.

JRM

 John,

Lic NO. 34 - 25957-03E  
 Docket NO. 030-30726

Inspectors: Please Note to review this email

prior to your inspections of "Fluke Biomedical,  
 AKA Cardinal Health!"  
 Thanks Tony 3/22/05

This company (docket no. 03030726) has undergone several changes of name / ownership over the past few years, and it appears that they have done so in most or all instances without giving prior notification.

It appears that the last inspection was 7/31/02; perhaps this would be an issue for a future inspection?
