

EX 7C

From: Joseph Petrosino *NRR*
To: [redacted]
Date: 5/28/04 11:35AM
Subject: Request for Telephone Discussion

Dear [redacted]

Since I could not locate your name in the [redacted] attempted to reach you at your home telephone number [redacted] and I left a message on your home voice-mail.

As I said in my previous e-mail. I am an Allegations Coordinator at the NRC's Headquarters Office in Rockville, Maryland, and I am in receipt of the concerns which you transmitted to the NRC Allegation staff on May 21 and May 27, 2004.

Mr. Jim Heller, Region III Office Allegation Coordinator took initial responsibility for your concerns and referred the concerns to NMC for its response. The initial NMC response to RIII was not as comprehensive as our Region III staff had requested; consequently, the communications between NMC and the RIII staff are currently still ongoing. However, Mr. Heller also transferred the concerns to our Headquarters allegation staff so that the Headquarters Division of Engineering and appropriate reactor systems personnel can also be involved and to coordinate all of the planned actions.

In my previous e-mail to you I requested a telephone discussion with you Tuesday, after the holiday. However, in light of your May 27th e-mail to the NRC, I was hoping that we could talk today.

Our NRC Headquarters switchboard in Rockville, Maryland, is (800) 368-5642. You can then ask for extension 2979 (my name is Joe Petrosino) or ext 4018 (Harold Chernoff - Project Manager- Point Beach). The purpose of the call is to obtain a better understanding of your specific concerns and discuss the aspects of the issues.

You can reach me by e-mail at jjp1@nrc.gov.

Your concerns will be processed in accordance with our allegation management system and your identity will not be released to NMC or other entities, with the exception of NRC staff on a need-to-know basis.

Regards,
Joe Petrosino
(800) 368-5642 (Ext 2979)
(301) 415-2979
NRR Allegations Coordinator
