NRC Form 313

Urgent **For Review** **Please Comment** **Please Reply** **Please Recycle**

● **Comments:** Dear Mr. Lodhni, a mistake was made in filling out our NRC form 313 on March 2, 2005. While filling out the part of the application that asked what kind of Radioisotope our gauges were using, we wrote that it was Americium 241; we instead are using nuclear gauges 4640 that uses Cesium 137. Please forgive us for that mistake and attribute this mistake to our first experience with the NRC. Thank you for your prompt cooperation in changing this mistake in our application. If you have any questions in the respect, please, do not hesitate in contacting me at 201-259-1963.
