April 1, 2005

Docket No. 03033256

License No. 47-25265-01

Arthur E. Linkins, Ph.D.
Vice President for Academic Affairs
Salem International University
223 West Main Street
P.O. Box 500
Salem, West Virginia 26426-0500

SUBJECT: INSPECTION 03033256/2005001, SALEM INTERNATIONAL UNIVERSITY,
SALEM, WEST VIRGINIA

Dear Dr. Linkins:

On January 12, 2005, Dave Everhart of this office conducted a safety inspection at the above address of activities authorized by the above listed NRC license. The inspection was an examination of your licensed activities as they relate to radiation safety and to compliance with the Commission's regulations and the license conditions. The inspection consisted of observations by the inspector, interviews with personnel, and a selected examination of representative records. Additional information provided during telephone conversations between Dr. Loren Bertocci of your staff and Mr. Everhart on February 24 and 28, 2005, was also examined as part of the inspection. The findings of the inspection were discussed with Dr. Bertocci at the conclusion of the inspection.

Within the scope of this inspection, no violations were identified. As requested by Dr. Bertocci, your license was amended on March 22, 2005, to permit the storage only of licensed radioactive materials. This action was taken because your program is inactive and your authorized users are no longer employed by the University. Prior to using licensed radioactive materials, you must request and receive an amendment of the license.

Current NRC regulations and guidance are available at the NRC Web sites listed below or by contacting the Government Printing Office (GPO) toll-free at 1-888-293-6498. The GPO is open from 7:00 a.m. to 9:00 p.m. EST, Monday through Friday (except Federal holidays).

Your cooperation with us is appreciated.

Sincerely,

Original signed by James P. Dwyer

James P. Dwyer, Chief
Commercial and R&D Branch
Division of Nuclear Materials Safety

A. Linkins, Ph.D.
