I spoke with Cynthia Hendrix, and informed her that I need information documenting the types of radionuclides, the quantities, the type of procedures and the period of time that she has worked with radioactive materials.

She stated that she has only worked with radioactive materials since being at Linguagen, less than a year. They sent her to RSO training in January.

I re-emphasized that I need this information in writing, specifically stating which radionuclides she has used, the quantities etc, and if she has weeks or months of experience. She stated that she would send me a letter this week with the information.

**Action Required/Taken:** wait for information**Signature:**
