NRC Contact: Betsy Ullrich	Telephone No: 610-337-5040	
Subject: FA for license		
<p>I spoke with Ron Frass regarding the license limits and the current financial assurance amount (\$750K total). It appears to me that they need FA/DFP for the source material, and higher FA for the SNM. If they can work with lower limits, they may not need as much FA as they do under the current limits. He requested that I send reference information by email. He said he would get back to me on this next week.</p> <p>11:00 AM: spoke with Ron Frass again, after sending the email. I made an error, which I realized after working out the details in the email. The SNM and source material limits may be okay, but with the BPM limits, they still do need to upgrade. He stated that he has his staff looking at their actual needs anyway, and will get back to me next week as planned.</p>
