Dr. P. T. Kuo
Program Director, License Renewal and Environmental Impacts
Division of Regulatory Improvement Programs
Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, DC 0555-0001

PROJECT NUMBER: 690

We are providing with this letter comments on the NRC's January 31, 2005, update material for the Generic Aging Lessons Learned (GALL) Report and Standard Review Plan (SRP). We appreciate the opportunity to review this material, and wish to compliment the NRC on the extensive improvements to these documents. We believe that when the industry comments are addressed, licensees submitting future applications will be able to achieve an improved alignment with the GALL Report, thus improving LRA preparation and review efficiencies.
