Mr. Ronald R. Bellamy  
Chief, Decommissioning Branch  
Division of Nuclear Materials Safety  
U.S. Nuclear Regulatory Commission  
475 Allendale Road  
King of Prussia, PA 19406

Dear Ron:

04008980

This letter formally requests that the Nuclear Regulatory Commission (NRC) terminate Heritage Minerals, Inc.'s (HMI's) NRC Materials License No. SMB-1541. HMI has completed final decommissioning and decontamination (D&D) of its facilities, land and soils covered by its NRC license in accordance with the provisions of its NRC-approved D&D plan, as modified by agreement between NRC and HMI. Please find attached hereto the Final Status Survey Report (FSSR) prepared by HMI's D&D contractor, ENERCON, Inc. demonstrating compliance with all relevant NRC D&D site closure criteria for the HMI site. The FSSR also contains attachments that set forth the history of and the progress towards final D&D of the HMI site. Please do not hesitate to contact me at (202) 496-0780 if you have any questions.

Respectfully Submitted,

  
Anthony J. Thompson
