March 9, 2005

Licensing Assistant Section Nuclear Materials Safety Branch U.S. Nuclear Regulatory Commission, Region 1 475 Allendale Road King of Prussia, PA 19406-1415

Dear Ms. Gabriel:

Attached are the follow-up responses to your e-mail dated on Feb. 22, 2005 for the amendment request on our facilities NRC license (license number: 06-02388-01).

03001250

MS 16 K-8

Item #1: Attached are the appropriate signature pages and transcripts for Leticia Salinas.

Item #2:In the new hot lab I will be storing the following material:Cs-137:Heyman Caps - 173.56 mCi on 3/1/05 (A total of 10 sources)3M LDR Sources - 111.5 mCi on 3/1/05 (A total of 12 sources)Amersham LDR Sources - 76.88 mCi on 3/1/05 (A total of 4 sources)

(These sources are held in an appropriate safe with 4" lead bricks surrounding the unit.) I-125: Sources as needed for a prostate implant. Typically less than 70 mCi at any given time. Also unused seeds from the implant are held for decay in storage. Shielding of small lead containers the material is shipped in is more than adequate to reduce dose rates to that of background.

Sr-90: (Brand name: Zevalin). Currently no material on-site and has not been used in the last 2 years that I have been here but I want to keep the option for future use.  $\sim 30$  to 35 mCi per dose.

## Item #3:

"... This location will also be the address of the High Dose Rate (HDR) source material." Is 5 Highland Street the address where the HDR will be both stored and used? Yes

Is this the street address that corresponds to your drawings submitted on Feb. 23, 2004 as part of your original request to add HDR? Yes

At that time, you requested the address of HDR use to be 100 Grand Street. Do you now wish to change that request? Please clarify. Yes I do wish to change the official address. All of the information originally submitted is correct; however, the hospital has officially changed the address of our department to 5 Highland Street. No other changes are required for the HDR.

If you have any questions, please don't hesitate to contact me. I hope this clarifies the issues you had.

Sincerely,

George Pavlonnis, III M.S. DABR American Board of Radiology Certified Medical Physicist
