Dear Mr. Bailey:

We have reviewed the proposed changes to the California Radiation Control Regulations, §30105, "Deliberate Misconduct," received by our office on March 8, 2005. These regulations were reviewed by comparison to the equivalent Nuclear Regulatory Commission (NRC) rules in 10 CFR Parts 30, 40, 61, 70, 71, 150 and the requirements of the one amendment identified in the enclosed State Regulation Status (SRS) Datasheet Data Sheet. We discussed our review of the regulations with Mr. Phillip Scott of your staff on March 21, 2005.

As a result of our review, we have no comments. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that the California regulation meets the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final California regulation. However, we have determined that if this regulation is adopted without significant change, it would meet the compatibility and health and safety categories established in the Office of State and Tribal Programs (STP) Procedure SA-200. We request that when the proposed regulation is adopted and published as a final regulation, a copy of the "as published" regulation be provided to the NRC for review.

The SRS Data Sheet summarizes our knowledge of the status of other California regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the STP website: <http://www.hrsd.ornl.gov/nrc/rulemaking.htm>.

If you have any questions regarding the comments, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact me, or Andrea Jones of my staff at (301) 415-6231 or ARJ@NRC.GOV.

Sincerely,

RA By Dennis K. Rathbun For
