PROPOSED RULE PR

(70 FR 07196)

DOE-ID has a safeguards information protection plan that was approved by the NRC to satisfy the current 10 CFR 73.21(h). Because DOE-ID has a distance-managed site (the Fort St. Vrain ISFSI), DOE-ID needs to retain the capabilities for handling and protecting SGI as approved. This need could be satisfied by adding a provision to proposed rule 73.22(g) to allow the use of other protective measures approved by the NRC pursuant to the old 73.21(h) or the new 73.22(g).
