Subject: Notice of Violation (NRC Inspection No. 05-001) Corrective Action

Dear Mr. Everhart:

The purpose of this letter is to provide you with information regarding the completion of our corrective action in response to the Notice of Violation No. 05-001 dated February 3, 2005.

In accordance with 10 CFR 20.1101 (c), the Franklin & Marshall College Radiation Safety Committee met on February 18, 2005 to complete the annual review of our Radiation Safety Program. The NRC NUREG-1556 Vol. 7 Consolidated Guidance About Materials Licenses was used as a guide to perform this review.

The review was documented in accordance with Appendix L, Sample Audit Program on our Radiation Safety Program Review document dated 02-18-05, which was developed from this guide. To ensure yearly compliance to this requirement, the review was added to our Regulatory Compliance Calendar and is scheduled for completion each February.

Thank you for your assistance in the resolution of this matter.

Sincerely,

Denise Freeman  
Director, Environmental Health & Safety  
Franklin and Marshall College
