Control No.: 136270

Dear Steve,

Thank you for taking the time to making these corrections.

First, the error you caught: Answer to question #9 on the test should be 993.

Second, please change answer to question 3 about acceptance criteria for leaking testing to be 0.005 microcuries (see 10 CFR 34.27)

Third, please add the words "and TLD" to answer #4 on the test and to the Internal/ALARA Inspection Checklist to allow for flexibility (you can use either a film badge or a TLD). This is consistent with your Procedure No. 2 "Personnel Monitoring."

Fourth, please add: "Did the radiographer properly supervise the radiographer assistant?" to your Internal/ALARA Inspection Checklist.

Thank you very much.

Kathy Modes
