<p><u>Summary:</u> I spoke with Francisco Olazabal, M.D. about 14:00. He indicated that he is still following one patient implanted with a plutonium-powered pacemaker. The physicians listed on the license are still with the program. Since the license is in the name of the hospital, I should speak with Jose Isidor, Medical Director since the administrator has just been let go.</p> <p>14:45 I spoke with Mr. Isidor. He stated that he had very little English. He listened to what I had to say and requested that I send him an e-mail with what needed to be done. I sent the e-mail to the address specified but the "System Administrator" rejected it as undeliverable.</p> <p>15:00 I contacted Hector Bermudez, RII NRC inspector, and requested that he contact the licensee since he had a good command of the Spanish language. Mr. Bermudez agreed to do this and review the 4 results with me.</p> <p>16:00 Mr. Bermudez called me to inform me that he had spoken Rosa Orsini-Chevere, M.D. The representative stated that she would have the letter requesting renewal of the license faxed to NRC Region I. The licensee requested that NRC Region I fax them a copy of the license for their records.</p>
