Bob,

Please let us know if NSIR has identified security concerns regarding the PB outage information. If it is determined there are issues, I suspect it'll impact other plants also.

As promised....we need to work with NRR and Region III regarding the potential sensitivity of the information that Point Beach makes available to the public via its web site.....Bob Caldwell took this for action at the NSIR management meeting this morning.

Glenn and Bobbi,

I attended the TAS briefing today. Being the SRI I at Point Beach I wanted to pass along relevant information about a Point Beach Unit 1 outage. I'm expect that the Point Beach licensee appreciates this timing but I wanted to bring it to the attention of the staff here. Points;
