SUBJECT: CORRECTION TO INSPECTION REPORT NO. 70-1151/2005-201

Dear Mr. Fecteau:

This letter is to inform you that Inspection Report 70-1151/2005-201 dated March 15, 2005, contained an inadvertent administrative error on pages 11, 12, 13, and 14, in that open items from the previous criticality safety inspection report 70-1151/2004-202 were referred to by the inspection report header number 2004-201. The correct inspection report number header for the six open item references on the above four pages is 2004-202. This has been corrected in the official agency record, issued under ML050680536.

In accordance with 10 CFR 2.390 of NRC's "Rules of Practice," a copy of this letter and the enclosure will be available in the public electronic reading room of the NRC's Agency-wide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

If you have any questions concerning this report, please contact Lawrence Berg, of my staff, at (301) 415-6215.

Sincerely,
