SUBJECT: Supplement to Amendment Request  
For License Amendment in Support of Cycle 18 Core Reload  
Arkansas Nuclear One, Unit 2  
Docket No. 50-368  
License No. NPF-6

- REFERENCES:
1. Entergy letter to the NRC dated July 8, 2004, "License Amendment Request to Support Cycle 18 Core Reload" (2CAN070402)
  2. Entergy letter to the NRC dated March 7, 2005, "Supplement to Amendment Request For License Amendment in Support of Cycle 18 Core Reload" (2CAN030501)

Dear Sir or Madam:

By letter (Reference 1), Entergy Operations, Inc. (Entergy) proposed a change to the Arkansas Nuclear One, Unit 2 (ANO-2) Technical Specifications (TSs) that in part included a request to delete the Index from the TSs. Entergy provided clarification regarding the deletion of the Index by letter (Reference 2).

On March 24, 2005, Entergy and members of your staff held a call to discuss the proposed deletion of the Index. As a result of the call, the NRC requested information related to the distribution of copies of the TSs to organizations outside of Entergy.

The distribution process requires that each time ANO-2 receives an approved change to the TS (including a change to an index page) from the NRC or makes a change to the TS Bases under the Technical Specification Bases Control program, a transmittal form, with the accompanying changes, is sent to all controlled copy holders which include offsite organizations that maintain controlled copies of the TSs. Changes to the index pages would continue to be distributed in this manner following the approval of this amendment request.

AD01

There are no technical changes proposed by this letter. The original no significant hazards consideration included in Reference 1 is not affected by any information contained in this letter. There are no new commitments contained in this letter.

If you have any questions or require additional information, please contact Dana Millar at 601-368-5445.

I declare under penalty of perjury that the foregoing is true and correct. Executed on April 7, 2005.

Sincerely,

Dale E. James  
Acting Director, Nuclear Safety Assurance

DEJ/DM
