ATTN: Licensing

As discussed with you today, April 12, 2005, I am sending you Appendix M to NUREG 1556, Volume 1, Revision 1, which is a streamlined method of renewing your license. You may fill this form out and mail it to the address listed above. Please fax a copy to 404.562.4955 to expedite your renewal.

Your current renewal needs 3 clarifications:

- 1) the actual street address for the place of use
- 2) you need to delete the Form 314, which is a Certificate of Disposition of Materials
- 3) you should address your possession of a survey meter.

You can either submit the form or provide the requested information. In either case please reference Control Number 136590.

Thank you for attention in this matter. Please call me if you have any questions.
