Sam,  
This is to bring you up to date on the follow up action on the subject topic. A memorandum, dated October 2, 2001 was sent to the DPO Panel Chair, Niles Chokshi from John Craig. The memorandum quoted the "technical issues" from the submitter's e-mail and requested Niles to review the technical information in the e-mail to determine if it contains significant new information not previously considered. It also requested that Niles provide his assessment to John Craig by October 22, 2001. We will keep you and Jim Dyer informed of actions following receipt of Niles's assessment.  
Isabelle

Just recieved this. We should discuss the appropriate process for this one - given it reititerates  
dispositioned DPO issue. Bill T
