Maitri,

Please treat this entire document as proprietary. Even the information contained in the "Conclusions," such as the number of instruments required on the main steam lines for performing this analysis, should be considered proprietary to CDI.

Thanks,

Thomas G. Roddey

Thomas:

Thanks much for sending the presentation that was addressed in the CDI affidavit attached to Exelon's 2/9/05 letter, but not included in there. I have one question, it appears that every page of the CDI presentation is marked "Proprietary," and no non-proprietary version is provided. Do all the pages of the presentation contain proprietary information? Please verify and confirm.

Thanks much.

Maitri Banerjee, Senior Project Manager
Project Directorate III-2
Division of Licensing Project Management
Nuclear Reactor Regulation

Maitri,

The attached documents contain a copy of an affidavit and presentation from Continuum Dynamics, Incorporated (CD) related to the February 9, 2005, RAI response for issues related to the continuous operation of Dresden, Units 2 and 3, at EPU power levels. The information contained in the presentation is considered proprietary to CDI and, therefore, Exelon requests that this information be withheld from public disclosure in accordance with 10 CFR 2.390, "Public inspections, exemptions, request for withholding," paragraph (a)(4). Should you have any additional questions, please do not hesitate to contact me.

Respectfully,

Thomas G. Roddey
