

April 18, 2005

Mr. Christopher M. Crane
President and Chief Nuclear Officer
Exelon Nuclear
Exelon Generation Company, LLC
4300 Winfield Road
Warrenville, IL 60555

SUBJECT: BRAIDWOOD STATION - CONFIRMATION OF INITIAL OPERATOR LICENSE
EXAMINATION

Dear Mr. Crane:

In a letter (RS-04-093) dated July 14, 2004, your staff requested we schedule an initial license operator examination in May 2006. We have tentatively scheduled the requested examination to occur during the week of May 15, 2006. On-site validation of the examination is tentatively scheduled to occur at the station during the week of March 27, 2006. In the unlikely event that we are unable to support the examination during the scheduled weeks, we will inform you immediately upon discovery of such conditions and make arrangements to administer the examination at a mutually acceptable date.

As stated in your letter, your staff will develop the examination. We understand that you are training approximately six candidates for the examination. Please inform us at your earliest opportunity if you discover you need to change the scheduled date for the examination.

A supplementary letter will be sent to the training department approximately 120 days prior to the initial examination informing them of the chief examiner's name. The letter will also outline examination security expectations, list the materials required by the NRC to conduct the examination, reconfirm the examination dates, and reconfirm the number of candidates you have in the training program. If you have any questions concerning this information, please contact Mr. Dell McNeil of my staff at (630) 829-9737.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's Agencywide Documents Access and

Management System (ADAMS). ADAMS is accessible from the Electronic Reading Room page of the NRC's public Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

/RA/

Hironori Peterson, Chief
Operations Branch
Division of Reactor Safety
