Dr. Frank Rivas

RE: Nuclear Medicine Studies

Dear Frank:

Starting on the 24th of April 2002 and extending until the present date you have completed 157 nuclear studies comprising of myocardial perfusion studies using Tc99m Sestamibi. The studies have been completed satisfactorily and with the Radiation Safety courses performed in Orlando, Florida, I feel that you are qualified to perform the duties of an Authorized User for the NRC license. You may forward this letter to the Nuclear Regulatory Commission for their review.

Thank you very much,

Sincerely,

R.A. Stevens, M.D.
