SUBJECT: Supplement to Amendment Request
To Eliminate the Monthly Operating Report and Occupational Radiation
Exposure Report from the Technical Specifications
Arkansas Nuclear One, Unit 2
Docket No. 50-368
License No. NPF-6

REFERENCES: 1. Entergy letter to the NRC dated July 8, 2004, "License Amendment
Request to Support Cycle 18 Core Reload" (2CAN070402)
2. Entergy letter to the NRC dated December 20, 2004, "Application for
Technical Specification Improvement to Eliminate Requirements to
Provide Monthly Operating Reports and Occupational Radiation
Exposure Reports" (2CAN120404)

Dear Sir or Madam:

By letter (Reference 2), Entergy Operations, Inc. (Entergy) proposed a change to the Arkansas Nuclear One, Unit 2 (ANO-2) Technical Specifications (TSs) to eliminate the Monthly Operating Report and Occupational Radiation Exposure Report from the TSs. At the time of submittal, it was anticipated that Entergy letter (Reference 1) dated July 8, 2004, which proposed deleting the TS Index from the TSs and placing the Index under licensee control, would be approved prior to the letter of Reference 2 above. Because this is unlikely to occur, Entergy is supplementing its original letter supporting elimination of the aforementioned reports from the TSs to include a markup of the TS Index page (Attachment 1) that is affected by the deletion of these reports. The change to the TS Index is administrative in nature, contain no technical changes and, therefore, the original no significant hazards consideration included in Reference 2 is not affected by any information contained in this supplemental letter. Furthermore, the commitments contained in Reference 2 remain unaltered.

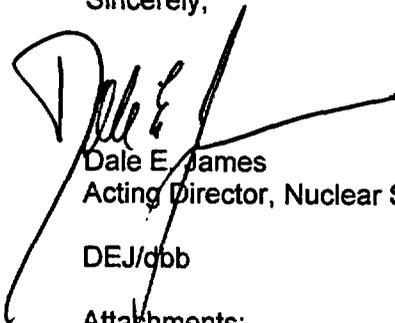

Revised (clean) pages are also submitted in Attachment 2 for NRC use in approval of the proposed TS amendment.

A001

If you have any questions or require additional information, please contact David Bice at 479-858-5338.

I declare under penalty of perjury that the foregoing is true and correct. Executed on April 12, 2005.

Sincerely,

Dale E. James
Acting Director, Nuclear Safety Assurance

DEJ/dbb
