

From: Mark Salley, NRR
To: FPG
Date: 4/13/04 7:44PM
Subject: Agenda for April 14, 2004 FP call

Good Evening,

We are all set for the monthly FP call tomorrow @ 10:00 Eastern. Eva has arranged a conference room and bridge line (with 15 lines!) for the monthly call. The number is (800) 369-1126 with a passcode of [redacted] the leader's name is EVA BROWN and the meeting room is O9B4. This is reserved for 10:00-11:30am.

Eva

One area I need to improve is documenting the calls. To improve this, I have created a "Template" with the agenda (See attachment MonthlyFPcallApril04). After the meeting, each topic lead will provide their input to James Downs who will complete the templet. With Jim's help, I should then be able to issue the summary to the FP Section Chief in short, painless order. If I missed any topics, please bring them to our attention tomorrow @ the beginning of the call & we will add them.

The second attachment (acknowledgment), Jim Downs will discuss during the call.

The third attachment (coal train-1.pps) is a slide show FYI. I wonder if the rail roads are risk-informing their fire protection programs??? For example, what is the probability of a coal train, having a brake overheat (ignition) and ignite the coal (fuel) while the train is stopped over a wooden trestle (fuel again)?? 1 x 10 E^8?? 7?? 6?? 5?? 4?? 3?? 2?? 1?? 0?? :o)

We in NRR look forward to hearing from you on the call tomorrow. Until then,

Be safe,

MHS

It was a normal day in Sharon Springs, Kansas when a Union Pacific crew boarded a loaded coal train for the long trek back to Salina.

Just a few kilometres into the trip, a wheel bearing became overheated and melted off letting the truck support drop down and grind on top of the rail creating white hot molten metal droppings that spewed down onto the rails.

The GOOD NEWS to this is that a very alert crew noticed a small amount of smoke halfway back in the train and immediately stopped the train in compliance with the rules.

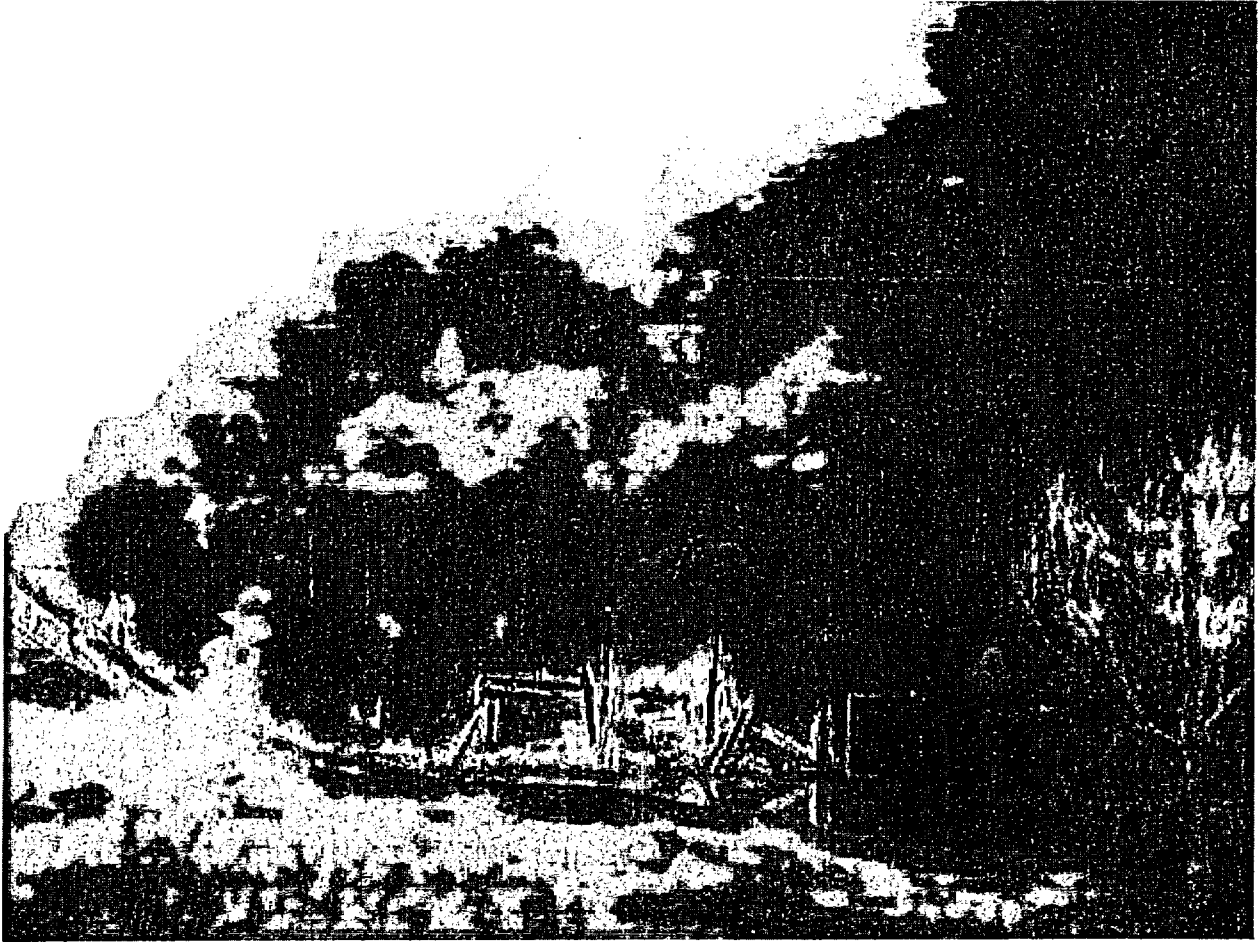

The BAD NEWS to this is that the train just happened to stop with its hot wheels on top of a wooden trestle bridge built with creosoted ties, bents and trusses.

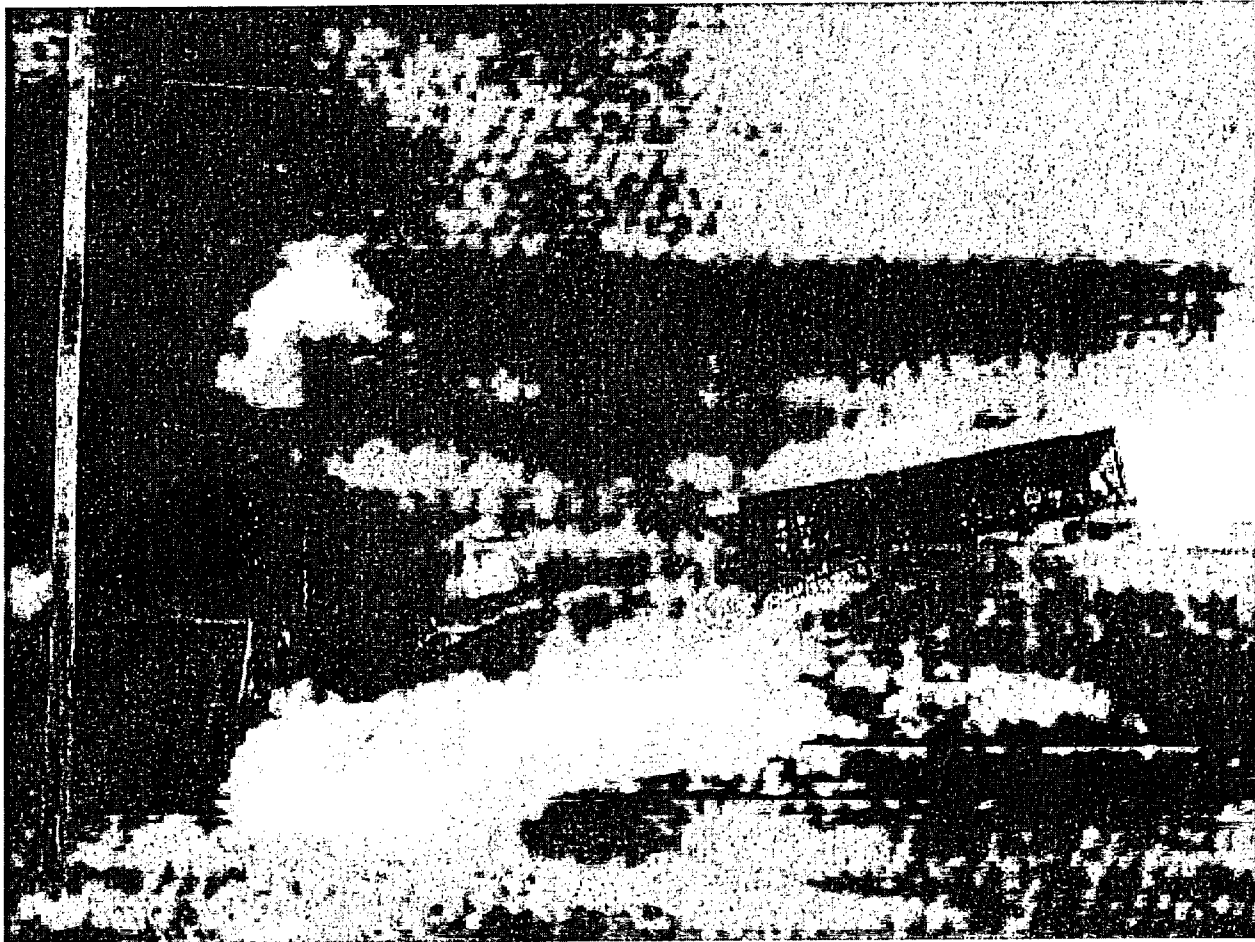

Ooops!

April 14, 2004**

Attendees

Region I

Region II

Region III

Region IV

Headquarters

Agenda Items Discussed

1. Manual Actions - Congressional Interest (Deva Brown)
2. Posting Thermo-Lag Orders (Brown)
3. NRC Chairman Briefing- Closing Fire Protection Issues (Radlinski)
4. NFPA Codes subscription (Frumkin)
5. NUREG 1805 Update/Acknowledgment (Downs)
6. ACRS Fire Protection Subcommittee Meeting (4/23/04) (Frumkin)
7. Fire Watch Requirements (RIII Doris/Langstaff)
8. MCR/ASD evacuation scenarios (RIV Nease)
9. Waterford URI, re: lack of electrical isolation (RIV Mullikin)
10. NEI 04-06 review & pilot @ Davis Besse (5/ 3-7/04) (RIII Laura/Salley)
11. NEI 04-06 review (Frumkin)

Action Items

- 1.

Next Phone Call

Due to the NRC support of the NEI pilot the first week of May 04, @ davis Besse, the next call will be the second Wednesday of May (5/12/04)
