Eva:

I asked James to compare the attached file with the latest we have. We found two brief inserts and agree with those changes. We already incorporated those changes. We did not find any changes to the tables. At this point in time, DSSA mgmt upto the division director has concurred. We plan to leave the revised document on Brian's desk today.

Sunil,

I incorporated all but the last of the OE comments into the latest version of the Letter. You guys should take another look at the existing table and see whether you concur with OE's assessment of the inspection items. I'm sure that some of them maybe should go based on the reason provided but they omit ANO and Harris and you should be 100 percent sure you agree before you delete them out of the table.

I'm in training today (T3B43), but I'll be checking my voicemail periodically if you need me.

- Eva
