Subject: Preliminary Comments on NEI 04-02 Rev G3 and Draft Reg Guide

Alex,

Per our discussion today, attached are our preliminary comments on NEI's working draft of NEI 04-02 as well as the current version of the working draft of the NFPA 805 reg guide. I am forwarding these documents to you to facilitate the completion of the final versions of both documents and to assist in coordinating the content so that unnecessary duplication does not occur.

Note that the comments on NEI 04-02 are, at this stage, the personal opinions of the reviewers and not necessarily the final NRC position. Likewise, the text of the draft final reg guide is preliminary and has not been reviewed or approved by NRC management. Please use the documents accordingly and do not distribute them to anyone who is not involved in the development of NEI 04-02.

The transmittal of these documents to NEI was discussed with and approved by Sunil Weerakkody and Chandu Patel. As I noted in our phone call, both documents will be entered into the NRC PDR (for record purposes only) as they appear in the attachments.

I will arrange for a telecon early next week to discuss any clarifications you may need on our comments.
