Facility Operating License No. NPF-37  
NRC Docket No. STN 50-454

Subject: Proprietary Information Related to Reactor Coolant System Loop Stop Isolation Valve Maintenance

Reference: Letter from S. E. Kuczynski (Exelon Generation Company, LLC) to U. S. Nuclear Regulatory Commission, "Request for Additional Information Related to Reactor Coolant System Loop Stop Isolation Valve Maintenance," dated March 5, 2005

In the referenced letter, Exelon Generation Company, LLC (EGC) provided additional information related to reactor coolant system loop stop isolation valve maintenance. The cover page of Attachment 11, "Westinghouse Instruction and Operating Book 5710-87A, Revision 3," was marked as "Westinghouse Proprietary Class 2." Only excerpts from this Instruction and Operating Book were included in Attachment 11. EGC has confirmed with Westinghouse Electric Company LLC, the owner of the information, that none of the provided information is proprietary in nature and may be disclosed to the public.

If you have any questions about this letter, please contact C. W. Szabo, at (630) 657-2821.

Respectfully,

Joseph A. Bauer  
Manager – Licensing
