SUBJECT: ISSUANCE OF LICENSE AMENDMENT & FINANCIAL ASSURANCE -
NRC LETTER DATED MARCH 17, 2005

Ms. Ullrich,

Thank you for your prompt response in amending the activities formerly associated with our Sealed Source License to our Broad Scope Materials License. An initial review of the new License found no omissions or errors. If any come to my attention, I will notify your office so that appropriate corrections can be provided.

I understand that renewal of our Broad Scope Materials License (19-21091-01) is under separate review. If I can be of any assistance during this renewal process, please feel free to contact me at your earliest convenience.

As per our March 21, 2005 phone conversation, financial assurance associated with the newly amended License is in-line with recently revised certification amounts listed in 10 CFR 30.35(d). It is understood that no additional information regarding financial assurance is needed at this time.

Thank You

Jerry T. Moore
Radiation Safety Officer
