Subject: Request to Reinstate NUREG-1460, Guide to NRC Reporting and Recordkeeping Requirements

Reference: NRC Material License SNM-1097, Docket: 70-1113

Dear Sir:

Global Nuclear Fuel-Americas, LLC (GNF-A) in Wilmington, NC hereby requests NUREG-1460, Guide to NRC Reporting and Recordkeeping Requirements, be reinstated and updated. The previous NUREG-1460, last published November 1992 was in a very useful format that we would like to see maintained.

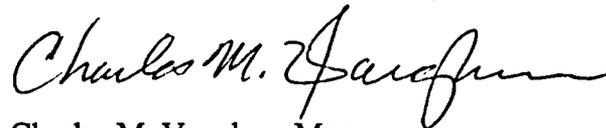

It would not be necessary to publish this document in hard copy form provided it was available in the ADAMS system. Having the regulatory requirements for reporting and record keeping that is electronically updated as new requirements are issued, would be a very useful and effective tool for maintaining an over check to a licensees compliance program.
