

TELEPHONE CONVERSATION RECORD	Date: November 10, 2004	Time: 09:30
Mail Control No.: N/A Inspection No.: N/A	License No.: 37-28306-01	Docket No.: 030-30892
Person Called: Harvey R. Schlesinger, Ph.D., Radiation Safety Officer	Licensee: Tektagen, Inc.	Telephone No.: 610-640-4550
Person Calling: Steven Courtemanche/(610) 337-5075		
Subject: Non-receipt of renewal application.		
<p><u>Summary:</u> I spoke with the receptionist and determined that the licensee had a name change. I left a message with Mr. Schlesinger to obtain more details and determine whether a renewal package was submitted.</p> <p>11/11/04 Mr. Schlesinger returned my phone call and left a message on my voice-mail. He indicated that there were some issues with their consultant but everything was set to go. I could call him or Laurie Montgomery at 610-640-4550.</p> <p>11/12/2004 12:15 I spoke with Mr. Schlesinger. He stated that they have almost completed the package for the renewal application and that it would be sent in by next week. He indicated that the name of the company was actually Charles River Laboratories. They had been inspected a number of times and were told that the change in name could be handled whenever they amended or renewed their license. The company also has been involved in a recent merger which is not documented in the renewal application. I informed him that the issues surrounding the changes in ownership would probably be addressed by whatever license reviewer was given the action. I also informed Mr. Schlesinger that there would be no fee associated with a license renewal but if he let the license expire, the application would be considered a new license application and he would be billed accordingly.</p>		
Action Required/Taken: Place into ADAMS.
