Subject: Information needed for an NMED Event.		
<p><u>Summary:</u> Ms. Lopez called me to inform me that they have located documentation showing that the Nickel-63 source was sent back to Du Pont for disposal. The paperwork was buried in the files of the Radiation Safety Officer from two administrations ago. She will be contacting Du Pont to confirm their receipt of the source. I requested that she send a follow-up to their lost source report as required by 10 CFR 20.2201(d). The licensee should send an amendment request in as a separate action, requesting that the nickel-63 source be removed from the license. Ms. Lopez stated that she would see that the two above actions are completed in a timely fashion.</p>		
Action Required/Taken: Place into ADAMS.
